

COVIDIA

REF COV-001

COVIDia is a rapid immunochromatographic test for the qualitative detection of IgM/IgG antibodies specific to SARS-CoV-2 in serum, plasma, fingertip blood or venous whole blood samples of pneumonitis patients or suspected cases.

Sensitivity: 100% (CI_{95%}: 88-100%)

Specificity: 93% (CI_{95%}: 85-97%)
